

# Residential Living

At the heart of Fayette Resources is the residential program. Individuals with developmental disabilities live with others of like personalities, common interests and similar capabilities in fully staffed homes. These homes are often referred to as Community Living Arrangements.

The primary goals of this program are:

- To assist individuals in living successfully and independently in the community
- To maximize their skills
- To increase their ability to cope with life situations

Caring and well-trained staff work with the individuals to establish routine patterns of every day living that reflect those of the community at large. These patterns may include organized time for work, leisure activities, chores and vacations. Individualized teaching is an integral part of our residential services. Over time, individuals learn new skills drawn from an Individual Support Plan (ISP), which is a consistent and personalized hands-on strategy of staff interactions and instruction.

Areas of concentration may include:

- Self care
- Independence
- Social and personal development
- Intellectual and communication skills
- Money management
- Leisure and recreation
- Community awareness
- Mobility

**“Our job is to do whatever it takes to create a home, an extended family, and a set of meaningful life experiences for every person and every family that we support. We are especially pleased to see experienced agencies in other regions adopting many of our ideas and practices. If you wish to support the unique needs of your loved one, turn to an agency that is committed to excellence in human services.”**

**Kathryn Susano Morris**  
President/CEO
