

Support Services

Program Assistance Team

Our Program Assistance Team works with individuals, families and school/agency staff to help them make the most of Fayette Resources' programs and services. Individuals are eligible for services through the Program Assistance Team and referrals for Program Assistance are made through Supports Coordination.

Program Assistance Team services are designed to accomplish the following goals:

- Formulate specific behavior plans and intervention strategies for individuals
- Design comprehensive program plans (IEPs, ISPs) incorporating challenging goals to enhance skill development, independence and participation in the community
- Provide parent training designed to contribute directly to improved individual's skills, behavior, and independence
- Train agency staff to enhance the development and implementation of effective programming for individuals and their families
- Apply current technology and resources to help individuals improve their own lifestyles

Nursing Services

Fayette Resources is fortunate to have a Nursing Department where Registered Nurses and Licensed Practical Nurses serve as Medical Service Coordinators. The nursing department participates actively in transition activities with individuals who are moving into the community to live independently, in Community Homes, or in a Life Sharing situation.

Medical Services Coordinators assist the agency in providing the most comprehensive medical care possible through planning, implementation, evaluation and coordination of medical services for each individual.

Some of our Medical Services Coordinators' duties include:

- Follow-up on physicians' orders;
- Providing health care assessment;
- Following emergency procedures;
- Assisting staff training;
- Acting as a liaison with physician and other health care providers.
